"PAYOT AOX™ feels so light and non-greasy, which is important here in Queensland as heavy moisturisers tend to get sticky when you heat up. It has a soothing action when applied and I love the fact that it protects the skin against sun damage as well."

"I have been using Rationale products now for about four months and never has my skin looked better – my skin tone has evened-out, the texture is smoother and I have fewer lines. The serums take a bit of getting used to as I am usually a heavy cream girl, but I certainly won't be going back."

"I have dry skin so at this time of the year I am really feeling it! Smoothing la prairie on my skin feels like silk. Quite often creams for dry skin are very oily and leave your skin feeling heavy – not this one – light as a feather and very moisturising."
